

FURACÃO PET

FURACAOPET.COM.BR

The largest manufacturer of pet accessories in Latin America

Catalog

2023

We export to over 30 countries.

Everybody
love.

Everybody
likes.

A little bit of our history

A Hurricane Pet has been operating in the Brazilian market for over 16 years, formed by a group of entrepreneurs who have been in the business for over 25 years. Today the company is the largest manufacturer of injected solid toys and accessories in Brazil, with high quality products and better prices than imported products. We develop and launch all products in our company, with latest generation machinery, thus offering the best in domestic and foreign markets. It is a line marketed throughout Brazil with very competitive prices of feeders, drinking fountains, massive toys, guides, collars, injected plastic houses, toilets for dogs and cats, transport boxes, among others. This is a great business opportunity to diversify product mix across distributors and stores, and further motivate sales teams with products that will increase their turnover while offering great profit margins.

We participate in the Integrated Social Project Pet Brasil, which is focused on exporting and consolidating brands Brazilian companies in the foreign market. And we are also affiliated with one of the largest product associations for pets the APPA - American Pet Products Association. We are certified with the ISO 9001/2015 Quality Management System.

Modern and Comfortable

Product Measurements

Length: 66 cm

Height: 43 cm

Width: 50 cm

This toilet provides practicality that you and your cat they need, with a back-and-forth door and an activated carbon filter that help block odors by being closed. It is reserved as it does not leave the needs of the kittens on display and is easy to clean.

The Product comes with an activated carbon refill that eliminates odors and keeps the bathroom ventilated. It has a handle that makes it easy to transport to another environment at the time of cleaning and has wide opening and closing interlock system for daily maintenance and cleaning.

Suggested use:

1 To assemble, put the sieve between the two trays.

2 With the three mounted add the sand.

3 To clear play content from the dirty tray into the sieve.

4 Lift the sieve under the second tray to clean the sand.

5 Discard impurities from sieve in the trash.

6 Put the empty sieve into the tray clean and finally the second tray with sand under the sieve.

Identidade Pet

Location Tag

No monthly or annual fee!

Your petsafer!

How it works?

See how easy it is to use!

Activate the medal through the website. In case of loss and someone finds it, that person can read the QR CODE or the code on the back of the medal.

When reading the QR CODE, information about your Pet and tutor data will be displayed.

Why use?

Know the advantages you will have!

1 Much more chances to find you!

If your Pet is lost and someone finds it, you can read the code on the back of the medal (QR CODE) and find out the information to return your Pet.

2 Updated data!

With an online system, you can always keep your Pet's data up to date.

3 Geolocation!

When I read the QR CODE, it sends the GPS location via email to the animal's owner.

4 Resistant!

The Pet Identity Medal is made of stainless steel and can withstand water, scratches and the most varied situations your pet may encounter.

5 No monthly or annual fee

Purchase the medal for a single amount, register your Pet through the website www.identidadepet.com.br and that's it, your Pet is now safe. See how easy it is.

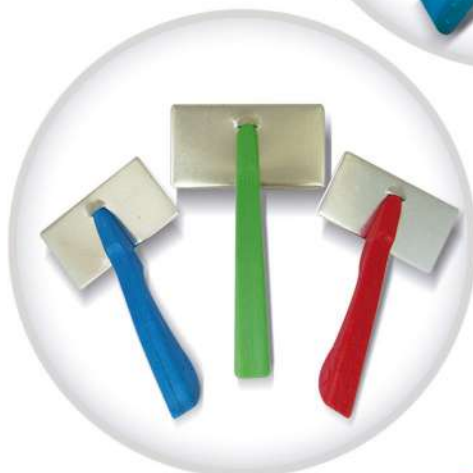

The pet's owner is notified by e-mail that their pet has been found and the nearest GPS location is provided.

Ready! Just get in touch and have your Pet back quickly and safely.

You will be able to access your pet's profile by Iphone, SmartPhone, Ipad, Tablet or by your computer. Anyone can get in touch with you, causing your Pet to return home as soon as possible.

All care and protection separated by quality

White

The Door Grille Furacão Pet serves to ensure the protection of your Pet with safety that can be opened on both sides.

It is extremely safe, functional and easy to install on doors and walls without causing damage to surfaces and without holes.

Suitable for small and medium-sized dogs, avoiding circulation in unwanted places.

Easy to adjust without tools for installation.

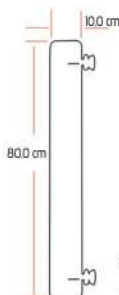

Black

Kit included:

- 1 gate with side adjustments and protections both at the bottom and top;
- 4 non-slip rubbers;
- 2 regulation butterflies;
- 1 upper lock;
- 1 iron lock.

Note: With purchase option without extender and with extender
